## LANGUAGES

- English (Fluent)
- Spanish (Basic)
- Japanese (Basic)
- French (Basic)

## PROJECTS

- Box Label Printer
- Automated Data Reformat
- Inventory Reorganization
- Wiki Creation

## PROFILE

I'm interested in using the power of automation to help small businesses stay competitive in an increasingly difficult market. After a small amount of formal training and some on-the-job tutoring, I was able to save my company hundreds of hours with one of my data reformatting VBA macros. I am now working on a B.A. in Computer Science.

## WORK EXPERIENCE

**Princeton University Store** 2023 - PRESENT  
Retail Associate

- Cashiered, cleaned, stocked, and provided general customer service as the need arose.
- Worked in e-Commerce answering questions over chat, fulfilling orders, taking orders over the phone, and processing returns.
- Helped with minor tech issues and did some receiving as necessary.

**MarketSource** 2023 - 2024  
Target Tech

- Sold tech (mostly phone, but also including computer hardware and game console) accessories
- Provided basic smartphone tech support for Consumer Cellular.
- Sold protection plans from within a Target location.

**Princeton University Store** 2018 - 2022  
Assistant Store Manager

- I opened/closed the store, stocked the floor, provided customer service, provided minor tech assistance, and generally helped out with the daily needs of the store.
- Worked on several programming projects to improve efficiency.
- Created a wiki to help make information more readily available to employees.

## EDUCATION

**Associate's Degree in Computer Science** 2022 - 2025  
Mercer County Community College

- 4.0 GPA
- Japanese 102, Comp.Sci 210, Public Speaking, University Physics 1
